Work Experience

Library Management System
Tech Stack: MERN, JWT, Role-based Auth
- Built a full-stack system for managing books, users, and categories.
- Added role-based access (Admin/User) with JWT authentication.
- Features include book issue/return, user history, and admin controls.
- Deployed on Vercel with MongoDB Atlas.

Personal Portfolio Website
Tech Stack: React, Tailwind CSS, Framer Motion
- Developed a responsive portfolio with animations and dynamic project filtering.
- Includes reusable components, contact form, and clean UI/UX.
- Deployed on Vercel.

Food Recipe Website

Tech Stack: MERN, JWT
- Built a full-stack recipe-sharing platform with secure user authentication using JWT.
- Users can add, edit, delete, and view recipes with search and filter functionality.
- Includes user registration, login, and profile management.
- Deployed on Vercel with MongoDB Atlas for cloud storage.
