PROFESSIONAL SUMMARY

Junior Full-Stack JavaScript Developer with 1+ year of professional experience building web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing responsive user interfaces, RESTful APIs, authentication and authorization, database-driven applications, and microservices-based e-commerce features. Hands-on experience integrating the OpenAI API into web applications, with additional experience in Next.js, PostgreSQL, Docker, GitHub Actions, CI/CD, and foundational AWS services.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, SQL, HTML5, CSS3, SCSS
- **Frontend:** React.js, Next.js, Redux Toolkit, Zustand, Tailwind CSS, Responsive UI
- **Backend:** Node.js, Express.js, REST APIs, JWT, Cookie-Based Authentication, Middleware
- **Databases:** MongoDB, PostgreSQL
- **DevOps & Deployment:** Git, GitHub, Docker, Docker Compose, GitHub Actions, CI/CD, AWS (EC2, S3, IAM, EBS, Load Balancer — Basic)
- **Tools & Services:** Postman, MongoDB Compass, VS Code, npm, pnpm, Vite, Socket.IO, Cloudinary

PROFESSIONAL EXPERIENCE

Junior MERN Stack Developer

Tech Solution Pro — Pakistan

AUG 2025 – JUL 2026

E-Commerce Website (Microservices Architecture)

- Contributed to a microservices e-commerce platform, developing full-stack features across customer and admin portals using React.js, Node.js, Express.js, and MongoDB.
- Built core e-commerce modules (products, cart, checkout, orders, reviews) with transaction handling and order validation across microservices.
- Developed admin management tools and reusable, responsive React UI components integrated with Redux Toolkit for complex state management.
- Consumed RESTful APIs and performed MongoDB/Mongoose data modeling, covering CRUD operations, error handling, and data transformation.

SELECTED PROJECTS

AI Recipe Generator

React.js | Node.js | Express.js | MongoDB | OpenAI API | Tailwind CSS | JWT | Zustand

- Built an AI-powered recipe generator that allows users to submit cooking ideas and receive AI-generated recipe content.
- Developed responsive React interfaces with reusable UI components and integrated them with Node.js/Express.js REST APIs.
- Integrated the OpenAI API server-side to generate recipes while keeping API credentials secure.
- Implemented separate user and admin portals with basic role-based permissions and protected functionality.
- Implemented API request rate limiting to help prevent excessive requests and protect backend resources.
- Used MongoDB to store user and application data and Tailwind CSS to build responsive interfaces.

Colour Book Platform — Freelance Frontend Developer

React.js | Zustand | Tailwind CSS

- Built an interactive platform for users to browse and engage with digital coloring content.
- Developed responsive React interfaces with reusable UI components and layouts using Tailwind CSS.
- Used Zustand for centralized client-side state management across application features.

EDUCATION

Design & Web Development Certificate — Sina Institute of Networks and Aesthetics (SINA) • Jan 2025 – Mar 2025

Intermediate (ICS) — Allama Iqbal Model Science College • Oct 2021 – Aug 2023

ACHIEVEMENTS

Started as an intern and progressed to a Junior MERN Stack Developer position within one month.
